

Please do NOT tamper with the NJ Do Not Call Law. You have no idea how much more pleasant our days and evenings are without having to deal with telephone solicitations. If the law is overturned, it will be remembered at election time>>>>>Please leave it alone. If companies and groups want our money and time, let them send information through the mail at full mailing rates. I WILL NEVER contribute or support anyone or anything that solicits by phone. It is a true invasion of our privacy.
